

GLOBAL FINANCE ANNOUNCES RUSSIA'S BEST BANKS AND COMPANIES 2008

NEW YORK, April 2, 2008 —*Global Finance* magazine has released its annual rankings of the “Best Banks and Companies in Russia” covering a range of sectors. The rankings will be published in an exclusive survey in the June 2008 issue. The winners will be honored at an awards ceremony in London on April 21st.

Global Finance editors – with input from industry analysts, corporate reports and other expert sources — selected the best banks and companies on a variety of criteria, both objective and subjective. Factors considered included market share, profitability, evidence of long-term strategy, management quality and commitment to improvement in corporate governance.

“Russian banks and companies had a remarkable year in

2007,” says *Global Finance* publisher, Joseph D. Giarraputo. “And there’s every evidence that may continue in 2008. While commodity prices’ strength clearly played a large part in the robustness of the Russian economy, it was the unmistakable signs of movement towards real corporate restructuring that was so heartening, particularly in relation to a growing commitment to good corporate governance.”

Global Finance, which celebrates its 21st year of publishing in 2008, has 50,000 subscribers in 158 countries. This audience includes chairmen, presidents, CEOs, CFOs, treasurers, and other financial officers responsible for making investments and strategic business decisions for global companies and financial institutions. *Global Finance* also targets the 8,000 key portfolio investors who control over 80% of all assets under professional management.
